## Linking a Leganto reading resource to your course page.

If you have not done so already, create a link in your course page to your master reading list

• See our <u>Creating a new reading list</u> for detailed instructions.

Linking a specific reading from Leganto to Akorara | Learn.

- Navigate to your course page.
- Turn on editing.
- Navigate to the desired section.
- Click Add an activity or resource
- Add an "External tool"

• Select Preconfigured Tool = "Leganto Readings":

| Activity name <b>()</b> | /                             |                |  |
|-------------------------|-------------------------------|----------------|--|
| Preconfigured tool (?)  | Show more<br>Leganto Readings | <b>~</b> + ⊗ : |  |
|                         | Select content                |                |  |

- Leave "Activity name" **blank**, as it will automatically be populated by the name of the reading.
- Click Select content
- You will be taken to Leganto and a menu of past reading lists. The **current** list will be **on top** with the status of "Published":

Click "Select list"

• If you only see section names, click  $\ddagger \exists Manage sections \\ at the top of the selection box.$ 

• Scroll down, select the reading to be added to your course page, and click "Select":

• The resource name will now appear in the 'Activity name" box:

| Activity name 🌗      | Horizontal elements defining space |         |  |
|----------------------|------------------------------------|---------|--|
| Preconfigured tool ③ | Show more<br>Leganto Readings      | ▼ + ☆ × |  |
|                      | Select content                     |         |  |

- Edit "Activity name" and add author and year (if appropriate)
- Click Save and return to course at the bottom of the page.
- Your resource will have been added to your course page:

• And in "Student view":

To add a Leganto section to your course page.

• If you have sections set up in your Leganto reading list, 'Add an activity or resource" as above, **but** select the Leganto section:
